EDUCATION

UNIVERSITY OF MARYLAND, COLLEGE PARK

August 2021 – Dec 2024

- **Bachelor of Science (GPA 3.97)**
 - **Social Data Science (government concentration)**
 - **Psychology**
- Member: Rewriting the Code, Alpha Phi Omega (community service fraternity), Alpha Sigma Kappa (women in technical studies sorority), Phi Kappa Phi (academic honor society)
- College Park Scholars Program – International Studies (Aug 2021 – May 2023)

EXPERIENCE

UNDERGRADUATE TEACHING ASSISTANT, UNIVERSITY OF MARYLAND

Aug 2023 – Dec 2024

- INST414 (Data Science Techniques)
 - Provide hands-on assistance to 26 students learning data science (supervised learning: classification and regression, unsupervised learning: clustering, statistics) during lab
- INST126 (Introduction for Programming for Information Science)
 - Provided hands-on assistance to 145 students learning Python (variables, data types, arrays, conditionals, loops, functions, I/O operations) during class and office hours
- PSYC300 (Research Methods in Psychology)
 - Provided hands-on assistance to 16 students learning research methods (Qualtrics, statistical analysis in R, qualitative and quantitative data collection and cleaning) during lab and office hours

iCONSULTANCY STUDENT WORKER, UNIVERSITY OF MARYLAND

Aug 2024 – Dec 2024

- Conducted sentiment analysis using natural language processing (Python) to evaluate customer feedback and identify key pain points in the customer journey
- Developed detailed customer journey maps and personas to improve engagement strategies by 24%
- Created interactive visualizations in Tableau to showcase sentiment trends and correlations
- Cleaned and consolidated 12 datasets into two unified datasets to ensure data consistency

DATA & ANALYSIS INTERN, DIGITAS

June 2024 – Aug 2024

- Automated data cleaning process in Python to reduce reporting time by 20% (1 day)
- Collaborated with interns to design and present a data-driven marketing campaign for Sephora, which intended to increase customer engagement by 18% through tailored audience segmentation
- Supported CRM initiatives by maintaining and updating benchmarks for quarterly reviews for Haleon
- Created detailed data reports using Tableau and Excel to ensure accuracy and clarity for client

DATAHON PARTICIPANT, DELOITTE

Apr 2024 – May 2024

- Collaborated in team of 5 to develop a data-driven proposal for a city for a new NBA team, aiming to generate an estimated \$1.4M in annual revenue through ticket sales
- Created dashboards in Tableau using data visualizations and explained visuals during presentation
- Applied machine learning models to predict the NBA's yearly expenses for the new team until 2040

DATA CURATION FELLOW, UNIVERSITY OF MARYLAND

Jan 2023 – June 2023

- Located, cleaned, and analyzed 10 datasets using Python and R for use by university professors
- Worked in team of three to create coding questions for use in information science courses
- Maintained comprehensive documentation of sources and data handling processes

PSYCHOLOGY RESEARCH ASSISTANT, UNIVERSITY OF MARYLAND

Feb 2022 – Dec 2022

- Conducted research on selective exposure and wrote and presented 12 literature reviews of studies
- Processed over 50 participants through decision, attention, and memory studies

SKILLS

- Python (pandas, tensorflow, scikit-learn, matplotlib, seaborn, BeautifulSoup, scipy)
- R (ggplot, dplyr, RSQLite, tidyr, shiny)
- Database Design (MySQL)
- Data Visualization (Tableau, Gephi, Power BI)
- Front-End Development (HTML, CSS, JS)
- Statistical Analysis (hypothesis testing, A/B testing, regression analysis)
- Machine Learning (linear/logistic regression, k-nearest neighbors, SVM, decision trees)
- Excel (pivot tables, data validation, error checking)
- Digital Marketing (client communication, brand lift studies, campaign analysis, demand-side platforms)
- Survey Design & Validation (Qualtrics, R)
- Project Management (Trello, Jira, Miro)
