Education

Master of Science: Business Analytics Expected: *Aug 2025 – Aug 2027*
Fordham University – Gabelli School of Business

Bachelor of Science: Social Data Science (government concentration) & Psychology *Aug 2021 – Dec 2024*
University of Maryland, College Park

- Leadership: Alpha Phi Omega (community service fraternity), Rewriting the Code, College Park Scholars, Alpha Sigma Kappa (women in technical studies sorority), Phi Kappa Phi Honor Society

Experience

Analyst, Analytics, Zenith *April 2026 - Present*

- SQL (Amazon Redshift; Databricks): Automated weekly data pull process by developing SQL queries to efficiently extract campaign data for Venmo and PayPal campaigns
- Python: Automated a data QA and distribution process for first-party data in Python to ensure data accuracy (openpyxl; pandas; numpy)
- Develop and present pacing reports to track campaign spend and delivery goals

Associate, Programmatic, WPP Media *March 2025 – March 2026*

- Validate campaign data for 6 Johnson & Johnson brands to ensure 100% accuracy in audience targeting
- Manage campaign execution across The Trade Desk, DV360, DeepIntent, and PulsePoint for 11 campaigns by monitoring setup, pacing, and optimization to maintain delivery within 5% of planned budgets
- Leverage audience segmentation and targeting analytics to improve campaign reach and performance, resulting in significant increases in client's target KPIs, reach and view-through-rate

Undergraduate Teaching Assistant, University of Maryland *Aug 2023 – Dec 2024*

- Data Science Techniques, Introduction for Programming for Information Science, Research Methods in Psychology
- Provided hands-on assistance to students learning data science (clustering, classification, regression, statistics), and research methods (R, statistics, data collection/cleaning), and Python (variables, data types, arrays, conditionals, loops, functions)

Data & Analysis Intern, Digitas *June 2024 – Aug 2024*

- Automated data cleaning process in Python to reduce reporting time by 1 day
- Collaborated in team of 8 to design and present a data-driven campaign for Sephora, prioritizing increasing reach among BIPOC Gen-Z
- Conveyed campaign insights through creation of data visualizations using PowerBI and Excel to display campaign trends over the quarter

Data Curation Fellow, University of Maryland *Jan 2023 – June 2023*

- Located, cleaned, and analyzed 10 datasets using Python and R for use by university professors
- Worked in team of 3 to create practice coding questions to be used in information science courses
- Maintained spreadsheet with documentation of sources and data handling processes for each dataset

Projects

Social Data Science Capstone Project, University of Maryland *Aug 2024 – Dec 2024*

- Conducted sentiment analysis using NLP in Python to evaluate 2 years of customer feedback
- Created interactive visualizations in Tableau to showcase sentiment trends and correlations over time
- Cleaned and consolidated 12 datasets into two unified datasets to ensure data consistency

Artificial Intelligence Case Competition, University of Maryland *Oct 2024 – Oct 2024*

- Collaborated in team of 4 to design an AI-powered talent identification tool for ASHA IT, a DMV business
- Applied NLP to analyze and score resumes based on candidate qualifications
- Presented ideas to a panel of 5 judges to communicate technical details and potential business impact

Smith Analytics Consortium Datathon, Deloitte & Smith School of Business *Apr 2024 – May 2024*

- Collaborated in team of 5 to propose a city for a new NBA team using logistic regression
- Created 5 Tableau dashboards to visualize current and future NBA trends
- Applied multiple regression models to predict the NBA's revenue projections for the new team until 2043

Skills

Database design (MySQL, Oracle Modeler & Apex); Programming (Python/R); Excel (pivot tables/VLOOKUP/Power Query); Visualization (Tableau/Power BI/Gephi); Statistics (t-tests/chi-square tests/z-tests/regression analysis); Survey Design (Qualtrics); Demand Side Platforms (The Trade Desk/DV360/PulsePoint/DeepIntent); Alteryx
